EDUCATION

•Bachelor of Technology CSE - AI And ML

2023 - 2027

Vellore Institute of Technology, AP

CGPA: 7.40

•Mahaveer Inter College

Class XII

UPMSP , Lucknow

75%

•Tender Hearts School

Class X

CBSE , Lucknow

78%

PERSONAL PROJECTS

•VaderVerse – Gaming Platform

GitHub

Jan 2025

- Built a full-stack esports tournament and gaming community platform using Next.js, MongoDB, NextAuth, and TypeScript, supporting tournament interactions, player profiles, and community content.
- Engineered a full-stack AI telemetry system with MongoDB schemas, secure API routes, and a custom React hook to capture user interactions asynchronously for future AI-driven analytics.
- Migrated protected sessions from localStorage to secure HTTP-only cookies and redesigned responsive layouts across mobile, tablet, desktop, and 4K displays.

•Mystery Message – Anonymous Messaging Platform

GitHub

2026

- Built a full-stack anonymous messaging platform using Next.js App Router, MongoDB, and TypeScript, featuring user dashboards, message management, and configurable message acceptance.
- Implemented secure authentication and email verification using NextAuth.js, JWT, bcryptjs, Resend, and 6-digit verification codes, with Zod validation across API routes and forms.
- Integrated the Vercel AI SDK with OpenAI and Google providers to generate and stream AI-powered anonymous message suggestions, while designing MongoDB sub-document schemas for efficient user-specific message retrieval.

•Nova AI Voice Assistant

GitHub

2026

- Built a modular desktop AI voice assistant with an asynchronous Python pipeline integrating local wake-word detection, speech-to-text, LLM-based intent processing, tool execution, and natural text-to-speech.
- Engineered a secure decorator-based tool registry and two-tier memory system using SQLite, enabling controlled computer actions and persistent user preferences without arbitrary shell execution.
- Integrated OpenAI, Whisper, ElevenLabs, and Tavily APIs with voice activity detection and robust error recovery for responsive and privacy-conscious interaction.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C/C++

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, Django, Redis, JWT

Databases: MongoDB, MySQL, PostgreSQL, SQLite

AI/ML: PyTorch, NLTK, NLP, NumPy, Pandas, MATLAB

Cloud/Tools: Git, GitHub, Docker, AWS, Microsoft Azure

Relevant Coursework: : Data Structures and Algorithms, OOPS using Java, Artificial Intelligence, Machine Learning, Natural Language Processing , OS

POSITION OF RESPONSIBILITY

- **Parade Leadership:** Led and coordinated a parade, demonstrating leadership, discipline, coordination, and responsibility.

ACHIEVEMENTS

•2nd Place – MSC Hackathon

2026

MSC Hackathon

•State-Level Football Player

2022

Football
